Astro ‘Special’.**

4 CORNERS ASTRO STYLE (8.30 – 10.00)

**4, 20 minutes sessions, in 4 corners of the hall, running
simultaneously. A bell every 20 minutes to let members change
corners.**

1. Richard Thomas – An Introduction to Body Bioenergetics – Functional Testing

The human body is incredibly complex!

**Recent advances allow us to tap into this complexity with a view to restoring
functional health before the advent of “medical conditions”.**

A truly remarkable demonstration of the body’s innate knowledge of itself!

2. Ron Ehrat – Motor magic

Controlling Motors with electronics.

3. Charlie Madden Bt. BSc. MTech. MBA– TideWater

In collaboration with Design Students from Flinders University.

Fresh water from the sea, without emissions or fuel costs, half humanity many of whom are struggling with water, live within 60 miles of the sea.

4. Julianne D’Auvergne – Introduction to: An Analytical System of Clinical Nutrition

A means of testing each individual for his/her specific nutritional needs.

With this testing system it can now be demonstrated by objective clinical indicators that **there is no patient whose health problem does not have a nutritional component.** This is because there is no health problem that does not involve some form of *metabolic imbalance*.

Regardless of the ultimate cause of a patient’s suffering pain or disease, once the condition has become symptomatic the symptoms expressed will respond to some degree to nutritional therapeutic intervention, if that intervention is able to intrude on the metabolic imbalances associated with that patient’s symptoms.

This makes nutrition a clinical tool with universal application and almost unlimited potential.

THINKTANK with Ron.

No matter what field your problem is in, we try to solve it.
Sourcing materials, making something work, etc.

DON’T FORGET TO BRING YOUR USB FOR FREE INFORMATION AVAILABLE ON THE NIGHT.

PLEASE BRING A SMALL PLATE OF SUPPER TO SHARE

Adults \$6.00

Conc/Pen/Uni students \$5.00

MEMBERSHIP CEASES AFTER 2 YEARS ABSENCE FROM MEETINGS.

EXTRA EMAIL INFORMATION WILL NOT BE SENT TO NON ATTENDING MEMBERS.
